the six day bieyele race ended a few inutes after 10 o'clock last night with a e in 2 minutes 17 seconds. It was only race of the week and it was a race ontest and first one and then another across the line just six inches ahead array Downing of San José, Cal. The lest four were so elest together that it took the judges some minutes to decide their order at the finish. The first seven are entitled to prizes and the

Rutt was in the lead when the pistol sounded, and he shot to the front, followed by Downey, and, gaining a lead of some ten yards, the crowd shouted for him to win. But the sprint was young and there were good heady racing men behind the German rider, who was relying on his speed to give him such a start at the beginning that the others would not be able to catch him.

Downey was not to be left in this way and at the end of the first lap he went after Rutt and took the lead and held it to the end of the third lap, with Fogler second and Rutt third. All were in close order, and so far it was anybody's race. While going round on the fourth lap, Emil Georget shot to the front and a big shout greeted his performance. The crowd was liberal in its favors and each rider was loudly cheered as he made his effort to win honors. Downey held second place to the Frenchman, but on the fifth lap Fogler moved up second to Georget and Downey took third place.

Georget still held the lead on the aixth lap, with Fogler second, Downey third and Downing fourth. Then the great struggle began. So far the men had been riding fast, but at the end of the sixth lap the pace was increased by Fogler running past Georget and taking a lead. Georget was second, but he had finished his effort and was falling behind. Downing was third and was rapidly overhauling Georget.

At the eighth lap Fogler still had the lead and Rutt had shot into second place. The German was in fine shape, and it booked then as it he would win in spite of all the others could do. Downing was third and Downey fourth. The pace was terrific, and each man was riding his best. Fogler put on a little extra speed and stalled off Rutt's rush, and at the end of the ninth lap Fogler led by half a wheel, Rutt was second, a few inches ahead of Downing, and Downey was fourth.

Then came the final rush. Fogler had timed himself well. He had cleverly estimated his own ability and as the riders began the final lap he still kept the lead with Rutt pressing him hard. Downing had timed hi

by repeated efforts to regain his lost lap. If he succeeded he would have a chance to win and get sufficient advertising to attract well on the road. If he lost he still had the public's good will.

Walthour has filled his part of the contract well. He has sprinted two or three times each day and has failed to regain the lost lap. He has shouted fraud and is still the popular idol. His efforts have been the chief drawing card of the race and kept the public interested for five days. That suited the management, and as eight teams were tied for first place, and Walthour was still a factor when the last day began the price of tickets was raised to \$2 each and the simple public gave up.

The Health Department took a hand in the affair on Thursday. Dr. Darlington sent two inspectors to the Garden to look things over and it is probably through their having made a report that efforts were made vesterday morning to put the building in a better sanitary condition. Dr. Darlington said yesterday: "We cannot use our powers of disposeession without calling a meeting of the health board, except in cases which are of the gravest menace to the public health. We had two inspectors at the Garden yesterday and they found that although the health provisions were not of the best they were not serious enough to warrant drastic measures. If the race were to last into next week we could call a meeting of the board to see what could be done."

The Police Department took a hand in affairs again yesterday and rounded up half a dozen crooks, who were taken to Headquarters. Commissioner Bingham was asked what he intended to do. He said: "I asked Health Commissioner Barington if he cared to declare the place a public nuisance. The police will act if they are wanted. The police in any case will be active in the Garden during the day and up to the close of the race.

The Fire Department took a hand in the trouble yesterday. It was pointed out to the management that the number of fire exits was inadequate and in order to provide more so that i

The riders seemed to have settled down to the idea that everything would depend on the last mile, which really would be the only racing part of the whole contest, and the trainers were paying special attention to their preparations for this mile.

The fast rider of each team rested all he could during the day, while his slower team mate toiled on, just keeping up the semblance of a race. Wheels that were to be used in the final mile were carefully overhauled, adjusted and fitted with new tires so that when the proper time came the sprinters would be in good shape for the final struggle.

The race, as it has been called, this year has been a big success from a financial standpoint. It was estimated by one who can figure on show houses that up to Friday night more than \$100,000 had been taken in for admissions only. In addition to this are the many privileges that have been farmed out. The bar and restaurant have been a mint; the programme privilege, too, has paid well. The fakers in the basement and on the arena floor have had to pay well for their privilege, but they have all made money, and considerable money has been made, too, from the advertisements that are displayed around the building. The expenses of a show like this are not very large. The prize money is \$3.500; some riders get extra inducements, the track has to be built and the help paid; but that is all, so those interested in the management will make a good fat purse out of their venture.

TROPHY FOR MANUAL SCHOOL Boys' High School Second and De Witt Clinton Third in Annual Competitions.

The fourth annual indoor championships f the Public School Athletic League were held in the Forty-seventh Regiment Armory, High School won the bronze trophy for the best showing. It was a warm contest for the

best showing. It was a warm contest for the trophy, Boys' High School being a close second, with 24 points to Manual's 29. De Witt Clinton was third with 18 points, and Townsend Harris Hall fourth, with 12.

Fine work for the winners was done by A. Cozzens, who captured two firsts and lowered two records, one in the 100 yard dash and the other in the 220 for juniors. Owing to there being no high hurdles on hand the 100 yard high hurdle race had to be abandoned. Youngs of Manual raced home first in the mile run by making a stirring finish.

The half mile run was very exciting and had most of the 2,000 spectators on tiptoe and yelling with might and main. Lynch of Manual won in impressive style, though not without being pushed hard by Lang of Commerce. The summaries:

NEBRICH NATIONAL CHAMPION

NEW YORK A. C. MAN WINS ACROSS COUNTRY.

Buffalo Man Proves a Surprise and Easily Defeats Daly and Bouhag —Irish A. A. C. Again Takes the Team Honors—New

The national junior and senior cross-country championship of the Amateur Ath-letic Union took place yesterday on the Travers Island course under the auspices of the New York A. C. The course was about traversed bridle paths, roadways and woody trails. The start was in the centre of the athletic field and both junior and senior teams covered the same course.

After leaving the island the pack took a

turn to the right and after about one hundred yards on Pelham avenue a turn was then taken to the left by the Bolton Memorial, then immediately another turn to the left and into the roadway by the Bolton Priory. Then came a bridle path for about 400 yards and the runners crossed the road leading to the railroad station, after which there was some stiff going and a few stone jumps. As they skirted Mount Tom a hitch was taken through Plane Row and on to Pelham to the Bolton demorial and around again the same route.

After three laps of this the runners en-

tered Travers Island and finished on the track. The water jump, which has been the great test at the finish in former years, was not there this time, as it was considered a piece of cruelty to see the runners flounder into it after a gruelling race. On account of it being a national event it was expected that teams from other quarters than the metro-politan district would put in an appearance, but not a man came and the materia for the contest was produced by this locality

It was ideal weather for a hill and dale event, the athletes said, but the going was heavy: In the early hours of the morning light showers fell and thawed the hard ground a little, making it soft and sticky under foot. The senior packs were the first to take their marks and were brought out at 3:30 o'clock. Three clubs—the New York A. C., Mohawk A. C. and Irish A. C:-were represented by teams and there were individual entries from the Xavier A. A. and Pastime A. C., making twenty-three runners in all. New York A. C. rooters calculated that their team was strengthened by the addition of Frank Nebrich, who came from Buffalo to wear the winged foot, but not a few were sceptical at the start of his ability to go the distance and be there at the finish.

William Nelson of the Pastime A. C., the little Englishman, and on whom the Indians best of the lot, was suffering from rheumatism of the knees and had to quit the race after the first lap.

It was a remarkable race, but the surprise of the day was the work of Nebrich. After about a mile of the first lap had been covered he sailed to the front and tearing through the brushwood began to draw away from the pack. Bonhag was a big favorite for in-dividual honors and after they turned into Pelham avenue and when it was seen that he was headed by Nebrich the consternation

of the critics knew no bounds. When they sped by the finish of the first round Nebrich had a clean lead of eighty yards on Bonhag and the former was moving with great power, while the legs of the latter seemed to be sticking to the ground. Right the pack and running in the order named Odell, Joyce, Farrell, Mellor, Long, Hay vood, Katzenstein, Davis, Fuerst, Ewing. Harvey Cohn dropped out with Nelson and went to the clubhouse. The time was 10 minutes 30 seconds.

drawn still further away, being 150 yards in front of Daly, who had replaced Bonhag and was in second place by several yards. Close on Bonbag's heels were Frank, Carr, Root, on bonnags nees were Frank, Carr, Root,
Haskins and Joyce, with the others strung
out pretty well over Pelham avenue. No
great change took place during the third lap,
but Nebrich kept going and Daily kept pegging
away after him. Nebrich finally won by about
fity yards, with Bonhag about fifty yards in
third place. Carr beat Frank for fourth
place before they entered the island.

place before they entered the island.

The Irish A. A. C. won the team honors, with
the New York A. C. second, but the Winged
Foot went off with the honors of the day in
capturing the individual prize in the seniors
and the team prize in the junior event. Nebrich's time of 34 minutes 29 4-5 seconds was
fast going under the conditions, but it did not
supplant the record for the course of 32 minutes 52 seconds made by Newman of Corneli in
1904. That same year Daly ran in 33 minutes
11 seconds. The order of finish in senior

SEVENTH'S LIVELY GAMES. Paul Pilgrim Beats Long Standing Record for 1,000 Yards.

The Seventh Regiment Athletic Association celebrated its twenty-fifth anniversary last night by a set of games at the armory, Sixty-sixth street and Park avenue, and it being the fiftieth or jubile set everything went off with éclat. There was a big crowd present, including the customary fashionable array from the smart set. Around the path was a bewildering mass of gay gowns and plumes purple, green, pink and blue predominating. The 1,000 yard handicap was the first final of the night, and the small field of eight men was strung out on different marks in front of Paul Pilgrim, who had the post of honor. McKesson of Company K, who had so yards, showed the way for a lap or two and was who was on the same mark. Pilgrim drew der of Company K, who had 45 yards, spurted away in front and gained a big lead. He finally won from Pilgrim by a few yards, but the genial Paul was timed separately, with the result that he made a new armory record of 2 minutes 23 1-5 seconds. It supplanted an old timer of 2 minutes 25 1-5 seconds, made by A. B. George sixteen years ago. Pilgrim's record will hardly be accepted, as there is a clause in the rules to the effect that he man making a record must breast the

tors by the interregimental relay of one mile It was a handicap, and on this account an rregular start was necessary, which robbed and quite early in the hunt the Twenty-second Regiment, with an allowance of 41 yards, had the lead. Running at a good even clip the first team of the Twenty-third Regiment A bit of novelty was introduced in the shape

of a roller skating handicap of one mile, with Harry P. McDonald on scratch. A dozen competed and there was a wild clatter and a noise like ten subways when they started off. McDonald looked like a winner on the last bend for home, when Frank Hart fell right in front of him. McDonald leaped clear over Hart, but lost his own balance and went sliding along the floor on his back. Clyde Martin won the race handily. There was an open relay race of two miles for clubs and colleges which brought three starters—the Xavier, Pastimes and Columbia. University. E. P. Carr ran the first relay for the Xaviers and although he had the six miles of cross-country taken out of him in the afternoon he ran well and his work was a notable instance of pluck, gameness and stamina. The Pastimes led for three relays, but in the last lap were overhauled by Columbia, whose victorious athletes got a rousing ovation.

Company E came out wictorious in the significance. of a roller skating handicap of one mile, with

ovation.

Company E came out victorious in the night's point score by winning both the military trophy and the Halsted bronze iton. For the former only military events counted, that is, those contested for in fatigue uniform, and the scores were: E, 13 points; K, 8; I, 5; H, D and A, 3 points each, and B, 1 point. All the events counted for the Halsted lion, the score being E, 36; H, 23; D, 22; F, 17; K, 12; I, 10, and B and A, 7 points apiece.

1,000 Yard Run; Handlcap—Won by P, J. Scudder, Company K, 45 yards; Paul H. Pligrim, Company E, scratch, second; A. G. Bauer, Company A, 65 yards; third. Time, 2 minutes 21:5 seconds. Pligrim's time, 2 minutes 23:5 seconds, a new armory record.

Wall Scaling Contest—Won by Company K team. Time, 1 minute 34:5 seconds. Company H, second. Time, 1 minute 8 seconds.

One Mile Relay Handlcap—Interregimental—Won by Twenty-second Regiment, 41 yards, with A. J. Crockett, R. G. Koch, C. J. Clarke and Grafton F. NOTABLE AMONG THE AMERICAN LEAGUE ACHIEVEMENTS.

Official Averages Find Stone of St. Louis the Leading Sticker, With Lajoie and Chase Close Up-Griffith's Men Second in Team Hitting and White Sox Last.

The official batting averages of the American League at last have made their appearance, and at the head of the stick wielders of that organization is George Stone, the left fielder of the St. Louis Browns. The averages give Clark, the Cleveland catcher, the same figures as Stone, but the latter is the real champion, as Clark played in fewer games, and besides, when figured down fine. Stone has a shade the better of it in actual

Notable among the achievements of the American League wallopers is the rise of Harold Chase, the New York first baseman. Chase jumped up many points from his 1905 record and this year ranks just behind Lajoie, who is next to the two leaders. Chase is fourth in total hits made, Stone, Lajoie and Flick alone leading him in that respect. There are four New Yorkers in the select .309 class-Chase, Elberfeld, Keeler and Yeager. Old Jim McGuire is hard by with .299. Cranks generally will be pleased to find Keeler again in the fashionable set. Since he has been a regular player in big leagues Willie never has fallen below the

As a team the New Yorks stand second in batting, with the Clevelands first. A conspicuous fact is that the Chicagos, who won ship, are last in team batting. The busiest base runner in the American League is Jack Anderson of the Washingtons, who leads with thirty-nine steals. Flick leads in sacrifice hits with thirty-nine. averages follow:

VAN VLECK WINS CUE PRIZE. B Amateur Tournament.

terday afternoon in the final game of the 18.2 balk line billiard tournament at Daly's academy for class B amateurs. First place depended on the result of the game, and the rize went to Van Vleck by a score of 250 to 228. Van Vleck did not lose a game in the tournament, yesterday's victory being his fourth. Canda had not lost up to yesterday. It was a stubborn tussle between him and Van Vleck from start to finish. The averages were low, but the game was close. There was scarcely a stage of it when the men were more than a few points apart. Van Vleck being in

, INDOOR TENNIS. Heights Casino Team of Brooklyn Defeats

Cadet Corps of Boston. The lawn tennis team of the Heights Casino of Brooklyn yesterday defeated the team of the Cadet Corps of Boston in the second of the championship series of matches for the honors of the Inter-City Indoor League. It was the second defeat that the Bostonians had experienced, as two weeks ago they were beaten by the team of the Seventh Regiment. Hugh Tallant, C. M. Bull, Jr., Frederick B. Alexander and W. C. De Mille represented the Casino yesterday, while the Boston representatives were Richard Bishop, B. S. Blake,

Casino yesterday, while the Boston representatives were Richard Bishop, B. S. Biake, P. L. Schuyler and G. Walworth. For the Casters' side Biake was the only player to score a set, as he won his first from Bull.

The first match on the Casino courts brought Tallant and Bishop out for the singles. Bishop was puzzled by the long, low bounds, and as it was impossible for him to get up to the net without his being passed for the point by Tallant the Bostonian lost the match at 6-3 and 6-4.

The early contest of the afternoon session brought together Bull and Blake. The latter accomplished some excellent placing in the first set, and by getting up to the net for smashing at the critical periods he was successful in scoring the set at 6-4 before Bull had his game well in hand. The swift service of the Crescent champion and his good and timely placed drives worked have in Blake's court during the next two sets, so that Bull won the match at 4-6, 6-3 and 6-3.

Frederick B. Alexander and W. C. De Mille paired in the doubles. They came up to the net constantly and volleyed their shots so rapidly through the opposite court which. P. L. Schuyler and G. Walworth defended that the latter were constantly compelled to fall back. The Boston pair lobbed with good effect, but they were unable to turn the tide of deleat that had set against them and they lost the match in straight sets, at 6-4 and 6-4.

Following the matches a meeting of the representatives of the inter-city clubs was held, and William B. Cragin, Jr., Seventh Regiment Lawn Tennis Club, elected president of the organization, with Richard Bishop. Cadet Corps, Boston, secretary and treasurer The Moyamensing Lawn Tennis Club, of Philadelphia was elected to membership in the league, and its representative. Ewing Stille, will endeavor to arrange matches with the other clubs of the organization.
